

MEMORANDUM FOR: Chief, Africa Division
THROUGH : Deputy Director (Plans)
SUBJECT : Reimbursement Rates, Use of Vehicles
REFERENCE : Book Dispatch 3421, 1 Oct 62, C/AF to All
Stations and Bases

STAT 1. Reference dispatch would appear to be in contravention of [] (20 Oct 61) which requires Chiefs of Stations and Bases to establish the mileage rate at which payment and reimbursement will be made.

2. It is recognized that most COS's and COB's have been slow in providing the rate and supporting data. For this reason, subject dispatch might well have established an interim rate. Possibly this would have spurred the field into more prompt action.

25X1 3. It was the observation of the recent inspection teams in the area that conditions vary greatly from area to area, and between official and non-official cover. While in some areas the rate of 12 cents per mile appears to be justified, in other areas, such as [] (where persons under [] can purchase gasoline for 17 cents per gallon, and where the usual car is a Fiat 1100), the rate is more likely 6 cents per mile. 25X1

J. S. Earman
Inspector General
